# Why I Should Get Dental at School.

## *Be Dental HealthSmart*

### **Convenient.**

School dental check-ups and prevention treatments remove the hassle of travelling to find a dentist and taking unnecessary time off work.

**Less time off work for you and more time in school to learn for them.**

### **Catch and Fix early.**

**No one wants a tooth ache!** Our job is to try and prevent that before it happens, keeping their natural teeth healthy growing up.

### **Find what you can't see.**

Just because your child brushes every day and they have white teeth, it may not mean their teeth are 100% healthy. **Regular Professional Checks can find anything hiding that you cannot.** Let us make sure your child's teeth are healthy and in great shape.

### **A Lifetime of Healthy Smiles.**

Desensitising children to healthcare professionals at a young age is a great way give them life long health-habits growing up. It's the **secret to a lifetime of hassle-free oral health.**

### **Trusted Service.**

The **Trusted Dental Service** by New South Wales Schools since 2017.

**PLEASE HAND TO EVERY STUDENT**
